

Imagery and Geospatial Standards Process Flow

Daniel Gleason

20 February 1998

Objective

- Integrate standards development activity within NIMA with NIMA Configuration Control Board (NCCB)
- Integrate NCCB process with Defense Standardization Program (DSP) coordination (SD-1) process
- NCCB Baseline Configuration Item List is the foundation against which NIMA production systems operate

Old Process

1. Project approval
2. Draft development
3. Internal coordination
4. Internal comment resolution
5. External (SD-1) coordination
6. External comment resolution
7. Approval and publication

New Process

1. Project approval
 2. Draft development
 3. Internal technical coordination
 4. Technical comment resolution
 5. RFC* to add document to NCCB
Baseline Configuration Item List
- (* Approval pending external coordination)

New Process (cont.)

6. External (SD-1) coordination
7. External comment resolution
8. Additional Change Documentation
(Incorporates comments from external coordination into RFC)
9. RFC approval and document publication

Impacts to Process

- RFC process adds 60 days (estimated) to preparation of documents
- NCCB may not approve RFC in first round
- NIMA cannot guarantee a delivery date for SD-1 review

Advantages

- Ensures NIMA PEOs and PMs are aware of new/changed requirements
- PEOs can identify system and cost impacts and implementation schedule
- Achieves NIMA consensus before external review

MCGT Area FY 98 Program

- Y2K amendments now in review
- NIMA will begin RFC process with non-Y2K documents
- Schedule delays
 - Y2K took longer than expected
 - Non-Y2K will include 60 day RFC cycle

Service Reviews

- Services have identified resource shortfalls for document reviews
- NIMA and Services need to develop a prioritized and integrated schedule
- NIMA contracting also has requirements
 - Interim documents a solution

Interim Documents

- Interim documents allow for quick changes to be made to coordinated documents when time does not permit normal coordination. (DoD 4120.3-M)
- Must be followed up by a fully coordinated document within two years or interim document is cancelled
